-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 29, 2005 has been entered.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent basis in claim 17 for "the granola or snack food products" (claim 17, line 4), which can be corrected by canceling "a" (line 1) and making "product" plural (line 2). Correction is required.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-3, 5 and 8-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cook et al. Applicant is referred to paragraph no. 3, Paper No. 040704 and to paragraph no. 4, Paper No. 110804.

Art Unit: 1761

6. Claims 6, 7 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cook et al as applied to claims 1-3, 5 and 8-16 above, and further in view of La Baw et al. Applicant is referred to paragraph no. 4, Paper No. 040704 and to paragraph no. 4, Paper No. 110804.

7. Applicant's arguments filed August 29, 2005 have been fully considered but they are not persuasive. The binder in Cook et al is actually 100% sugar solution, despite applicant's contention to the contrary. The remaining components in Cook et al's binder system (col. 2, line 40) are not precluded by applicant's claim limitations since Cook et al's binder system is composed of a sugar solution binder and additional components which are part of the overall binder system but which are not actually binders per se. In this regard, applicant is referred to paragraph no. 7, Paper No. 031605.
